

Advances In RadioSurgical Blepharoplasty and Facial Rejuvenation

Course Director Dr. Chedly Bouzouaya

Dr. Bouzouaya received his residency training in ophthalmology at the University hospital in Geneva, Switzerland. His oculoplastic surgery fellowship was obtained at Mc Gill University.

Dr Bouzouaya was the Medical Director of Orbis international in New-York. He is a member of the American Academy of Ophthalmology, the European Society of Cosmetic Surgery and other scientific societies.

Dr Bouzouaya is the author of numerous papers, lectures and publications presented at congresses and scientific journals worldwide. Author of the mini-incision lowerlid blepharoplasty, a new approach to radiosurgery blepharoplasty.

As an invited speaker he has lectured extensively in America, Europe and Asia about radiosurgery in oculoplastic and cosmetic surgery and its role and value in modern non invasive surgical procedures. Dr Bouzouaya trained doctors to learn and sharpen their skills in radiosurgical blepharoplasty in Norway, Russia, Lebanon, India.

Accommodations

Accommodation can be arranged.

Tunisia is a very old civilisation going back to Carthage and the Romans and many more. There are incredible historical sites to visit and tours can be arranged.

Course Overview

The visiting surgeons will spend time with Dr. Bouzouaya as he sees pre and post op cosmetic and oculoplastic patients.

Lectures on the value of radio surgery in oculoplastic and cosmetic procedures will be presented as well as lectures on eyelid anatomy, aging face, wrinkles treatment, etc. Lectures can also be scheduled to accommodate individual needs.

Attendees will join Dr. Bouzouaya in the operating room as he operates, using the latest radiofrequency techniques.

There will be a limited number of doctors in each perceptorship.
